### DETAILED ACTION

This office action is in response to the amendment and remarks filed 12/5/05.

1. This application is in condition for allowance except for the presence of claims 12-29 and 31-33 directed to an invention non-elected with traverse in the reply filed on 5/12/05. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

### *Allowable Subject Matter*

2. Claims 1-11 and 30 are allowed.

With respect to claim 1, the following is an examiner's statement of reasons for allowance: the prior art of record neither discloses nor makes obvious the combination set forth in the independent claims, and especially does not show "*a fuel deliverer adapted to deliver a fuel within said buffer gas inlet port adjacent the rotatable rotor, wherein said fuel deliverer delivers fuel into a first portion of said buffer gas inlet port and not into a second portion of said buffer gas inlet pod*", in combination with the other claim limitations.

With respect to claim 30, the following is an examiner's statement of reasons for allowance: the prior art of record neither discloses nor makes obvious the combination set forth in the independent claims, and especially does not show "*creating waves within the passageway*

Art Unit: 3746

*to compress a portion of the working fluid within the passageway to define a buffer gas; discharging a first portion of the buffer gas from the passageway through the first end of the passageway and rerouting the first portion of the buffer gas from said discharge back into the passageway through the first end of the passageway; discharging a portion of the combusted gas from the passageway through the second end of the passageway to the turbine; and expanding the portion of the combusted gas within the turbine”, in combination with the other claim limitations.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
